## Line Feed Services

Ensuring products are *where you need them, when you need them*, so you can focus on your core business activity, improving efficiency and driving down costs.

We will remove complexity from your supply chain, allowing you to focus on your business strategy, core activities and reducing costs.

We have considerable experience of running line feed services worldwide and deliver bespoke solutions to meet specific aerospace and defence requirements.

Putting line feed solutions on the production line removes non value-added activity in areas ranging from goods-in and inspection through to storage and material handling, allowing you to free up internal expertise and resource to focus on your core business.

**Working with Pattonair, we can offer:**

- Flexible and tailored direct delivery to specified build line locations for our customers and their sub contractors
- Bespoke services including line feed, kitting, consigned stock, Vendor Managed Inventory and Kanban
- Best practice in project management eliminating risk during implementation
- Robust and reliable inventory management processes ensure efficient capture of usage and timely replenishment - with 99.9% product availability
- Customised Performance Indicators to meet your specific requirements
- A single monthly invoice covering all usage
- Sophisticated IT support infrastructure

....the Leading Global Aerospace and Defence Supply Chain Service Provider....
