Supply Chain Service Provider....

Pattonair
umeco supply chain

Kitting Services

**Advanced Kitting Services
for a wide range of
manufacturing, assembly,
aftermarket and MRO
requirements.**

**We will remove complexity from your
supply chain, allowing you to focus on
your business strategy, core activities
and reducing costs.**

Drawing on industry-leading experience
in kit build and management, we can
provide fully kitted solutions, whatever
the product and whatever your
requirements anywhere in the world.

Working with *Pattonair*, we can offer:

Fully traceable kits from simple plastic
bags to advanced kitting solutions for
full module and vehicle build production
– with bespoke solutions for specific
manufacturing, assembly, your sub
contractors, aftermarket and MRO needs.

- Kits are fully traceable at both parent and individual piece part level
- Kits can contain everything in the bill of material and beyond: hardware, electronics, clothing, sub assemblies, documentation, engineering work cards, tooling...
- Kits can comprise of *Pattonair* sourced product, customer owned or manufactured product or a mixture
- Kits can be built at any of our global facilities or on your own site
- Choose from a wide range of bespoke and standard packaging including 'greener' returnable boxes and protective indents
- User-friendly kit layouts are sequenced to meet the build requirement and designed to improve operational efficiency
- Flexible methods of delivery include Kanban, vending machines and consignment
- Kitting can be included in our line feed solutions if required

Working with Pattonair means you benefit from:

- 100% of the product is guaranteed to be in a kit, so improving your performance and service levels.
- Proven expertise
- Excellent quality standards
- Excellent product quality, availability and integrity
- The ability to focus on your core business
- Enhanced operational efficiency with product delivered to operators in user friendly build sequential order
- Reduced inventory and work in progress, and improved capacity planning
- Competitive pricing
- Improved profitability
- Reduced Total Acquisition Cost through competitive piece part pricing while removing waste and non value-add internal activity
- Line feed solutions for kits, where you need it, when you need it
- Less complexity
- Environmentally friendly returnable packaging
- A single monthly invoice for all product consumed
- User friendly for operators and sub contractors: easily visible, easily accessible
- World class aftermarket support

- *Advanced* – no product boundaries, with complex kits that can include documentation and a complete range of product including disposable, perishable, hazardous and consumables; we supply everything from complete vehicle kits to industrial clothing
- *Vending Machine* – a convenient way to ensure instant controlled access to products like consumables and workwear

Kits available

- *Simple* – product is packed in sealed bags or boxes, so there's no risk of frustrating shortages
- *Sequential* - build or alpha numeric, items are packed in build sequence order: (a time saving approach ideal for assembly and MRO)
- *Refurbishment* - these kits have a mixture of reusable and new components for sub assembly refurbishment or standard line maintenance; optimising this balance means significant cost savings

Taking you further

A subsidiary of Umeco plc,the Leading Global Aerospace and Defence Supply Chain Service Provider... Our strategy, unique in this industry, is based on operating globally while meeting the needs of individual customers with hands-on local support. There are no boundaries to the supply chain services and products we offer; simply a flexible, informed and open-minded approach with people that understand the aerospace business and are dedicated to delivering improved performance through more effective supply chain management.
